

Scott J. Davis
Program Executive Officer, Ground Combat Systems

Mr. Davis was selected for the Senior Executive Service in November 2005. He previously served as the Deputy Program Executive Officer, PEO Integration, and was responsible for the organization and management of acquisition programs designed to support Brigade Combat Team (BCT) modernization. PEO Integration performs the development, integration, and acquisition of a wide range of systems, including the Ground Combat Vehicle, Unmanned Ground Vehicles, Unmanned Air Systems, and unattended munitions. Mr. Davis led the development, production, fielding, and sustainment activities for these systems.

An Army Reserve Officer, Mr. Davis is currently assigned to the Assistant Secretary of the Army (Acquisition, Logistics & Technology) and has held a variety of positions from platoon leader through battalion executive officer.

Mr. Davis began his career in 1986, serving as a Mechanical Engineer, Program Manager, Light Combat Vehicles. He was then assigned as the Lead Project Engineer, Line of Sight Anti-Tank System; Lead Project Engineer, Command and Control Vehicle; and Assistant Product Manager, Bradley Linebacker, Bradley Fighting Vehicle Systems Project Management Office. In 1997, Mr. Davis accepted responsibility as Assistant Project Manager, Bradley Research and Development, after which he served as the Deputy Product Manager, Infantry Carrier Vehicle Variants, PM BCT. His subsequent assignment was Director of Engineering, Future Combat Systems.

From 2005 to 2008, Mr. Davis was assigned as the Deputy Program Manager (Operations) (SES), PM Future Combat Systems (BCT). He then served as the Deputy Program Manager (Platform Integration) (SES), PM Future Combat Systems (BCT), before accepting the responsibility as Deputy Program Executive Officer, PEO Integration.

Mr. Davis holds a Bachelor of Science degree in Mechanical Engineering from Michigan Technological University and a Master of Science degree in Industrial Engineering from Wayne State University. His military training includes the Engineer Officer Basic and Advanced Courses, Combined Arms Staff Services School, Command & General Staff College, and the Advanced Program Manager's Course, Defense Systems Management College.

Mr. Davis is an Acquisition Corps member and holds Level III Certification in Program Management, Level III Certification in Systems Planning, Research, and Development – Systems Engineering, and

Level II Certification in Systems Planning, Research, and Development – Program Systems Engineer. His awards and honors include the Commander's Award for Civilian Service (2001 and 2008) and the Superior Civilian Service Award.
